SUMMARY

Results-driven **Full-Stack Developer** with a solid foundation in **modern web technologies** and a proven track record of delivering **scalable, high-performance applications**. Proficient in **React, Next.js, Node.js**, and **MongoDB**, with hands-on experience in building **interactive, real-time**, and **user-centric web applications**. Skilled at translating business requirements into technical solutions, writing clean and maintainable code, and working collaboratively in **agile, cross-functional teams**. Passionate about continuous learning and committed to delivering products that balance performance, usability, and innovation.

EXPERIENCE

06/2024 - 07/2025	●	Full Stack Developer
Delhi, India		Rauch International <ul style="list-style-type: none">Designed, developed, and deployed responsive web applications using Next.js and Tailwind CSS, resulting in a 25% improvement in load times and enhanced user experience.Integrated AWS S3 for scalable and secure asset storage, reducing data retrieval time by 30% and optimizing backend performance.Implemented RESTful APIs and handled full-stack development tasks, including frontend logic, backend services, and database management.
07/2025 - Present	●	Front End Developer
Delhi, India		ITG Telematics Pvt. Ltd. <ul style="list-style-type: none">Developed and maintained frontend features including new page creation, API integrations, and seamless data rendering in a production environment.Implemented interactive Google Maps functionality by enabling geofence and POI creation/editing for improved usability and real-time tracking.

EDUCATION

2017 - 2020	●	Diploma, Computer Science
		Guru Nanak Dev Institute of Technology, Delhi
2021 - 2025	●	B.Tech, Computer Science and Engineering
		Krishna Engineering College, Ghaziabad

PROJECTS

CODESHIFT

- github.com/Prince453-hack/codeshifter
- Developed a Q&A platform enabling real-time programming discussions and answer voting.
 - Technologies used: Next.js, MongoDB, Clerk, Tailwind CSS, ChatGPT API

ZENITH

- github.com/Prince453-hack/zenith
- Engineered a real-time collaborative design platform using WebSockets, supporting multi-user interaction.
 - Ensured seamless updates and state synchronization across clients with Zustand
 - Technologies used: Next.js, Zustand, Liveblocks, Tailwind CSS

NOVAHORIZON

- github.com/Prince453-hack/novahorizon
- Created a hotel listing and booking platform with real-time data handling and dynamic UI.
 - Enabled user account management and listing CRUD operations with JWT-based authentication.
 - Technologies used: React.js, Node.js, Express.js, MongoDB, Redux

TECHNICAL SKILL

Languages

JavaScript, Java, Express.js, Solidity, HTML5, CSS3

Others

Git & GitHub, VS Code, Docker, Figma, AWS (IAM, EC2, S3)

Technologies

React.js, Next.js, Express.js, Node.js, Tailwind CSS, React Native

Databases & ORMs

MongoDB, MySQL, Mongoose, Prisma, Drizzle
